

# Sterile Injectables Fill & Finish

New State-of-the-Art  
Filling Suite for Vials,  
Syringes and Cartridges

## Your Partner for Sterile Injectables

**The expansion of our Fill & Finish capacities is an investment for the future.**

With the latest technology and our well-developed expertise, Aenova's Latina site is ready to provide cost effective and customized solutions for your products.

- Sterile manufacturing of vials, syringes and cartridges under isolator, in RTU components (compliant with EU GMP Annex 1)
- Robotic line for filling of vials, syringes and cartridges, in glass and COP
- Additional capacity of 40M units/year from 2027
- Integrated end-to-end cold chain management

## AENOVA OFFERING

# Superior Manufacturing Solutions

### A state-of-the-art Fill & Finish suite

#### Ability to manage:

- Small and large molecules
- Late clinical phases, pre-registration and commercial manufacturing

#### Full-service and integrated offering:

- Batch size scale-up and technology transfer
- Process and cleaning validation, regulatory support
- In-house micro- and biochemical quality control
- Commercial manufacturing, end-to-end supply chain management

## FILL & FINISH CAPABILITIES

### Features

Ready-to-use components

Oxygen, light and HP sensitive products

Time Out of Refrigerator management

Flexible compounding with disposable or stainless steel vessels

Batch sizes from 6 lt up to 1500 lt

Designed to also handle suspensions

PFS\* from 0,5ml to 10ml

Vials from 2 ml to 10ml

\* or cartridges

## INVESTING IN THE FUTURE

### Enhancing F&F Capacity 2025-2027

Robotic filling line under isolator GMP ready in Q2 2027.

Further sterile capacity expansion planned for 2028-2030.

Biologics/biosimilars fill & finish products: Highest dosing precision and lowest line losses
